Thoroughbred · Ascot: camera plan

The whole course to scale, north up, 100 m grid, metres from the winning post. Running is clockwise (arrows). Furlong markers are distance to go. Faint boxes are the site pieces; dark dots the planting belt.

How to mark it up

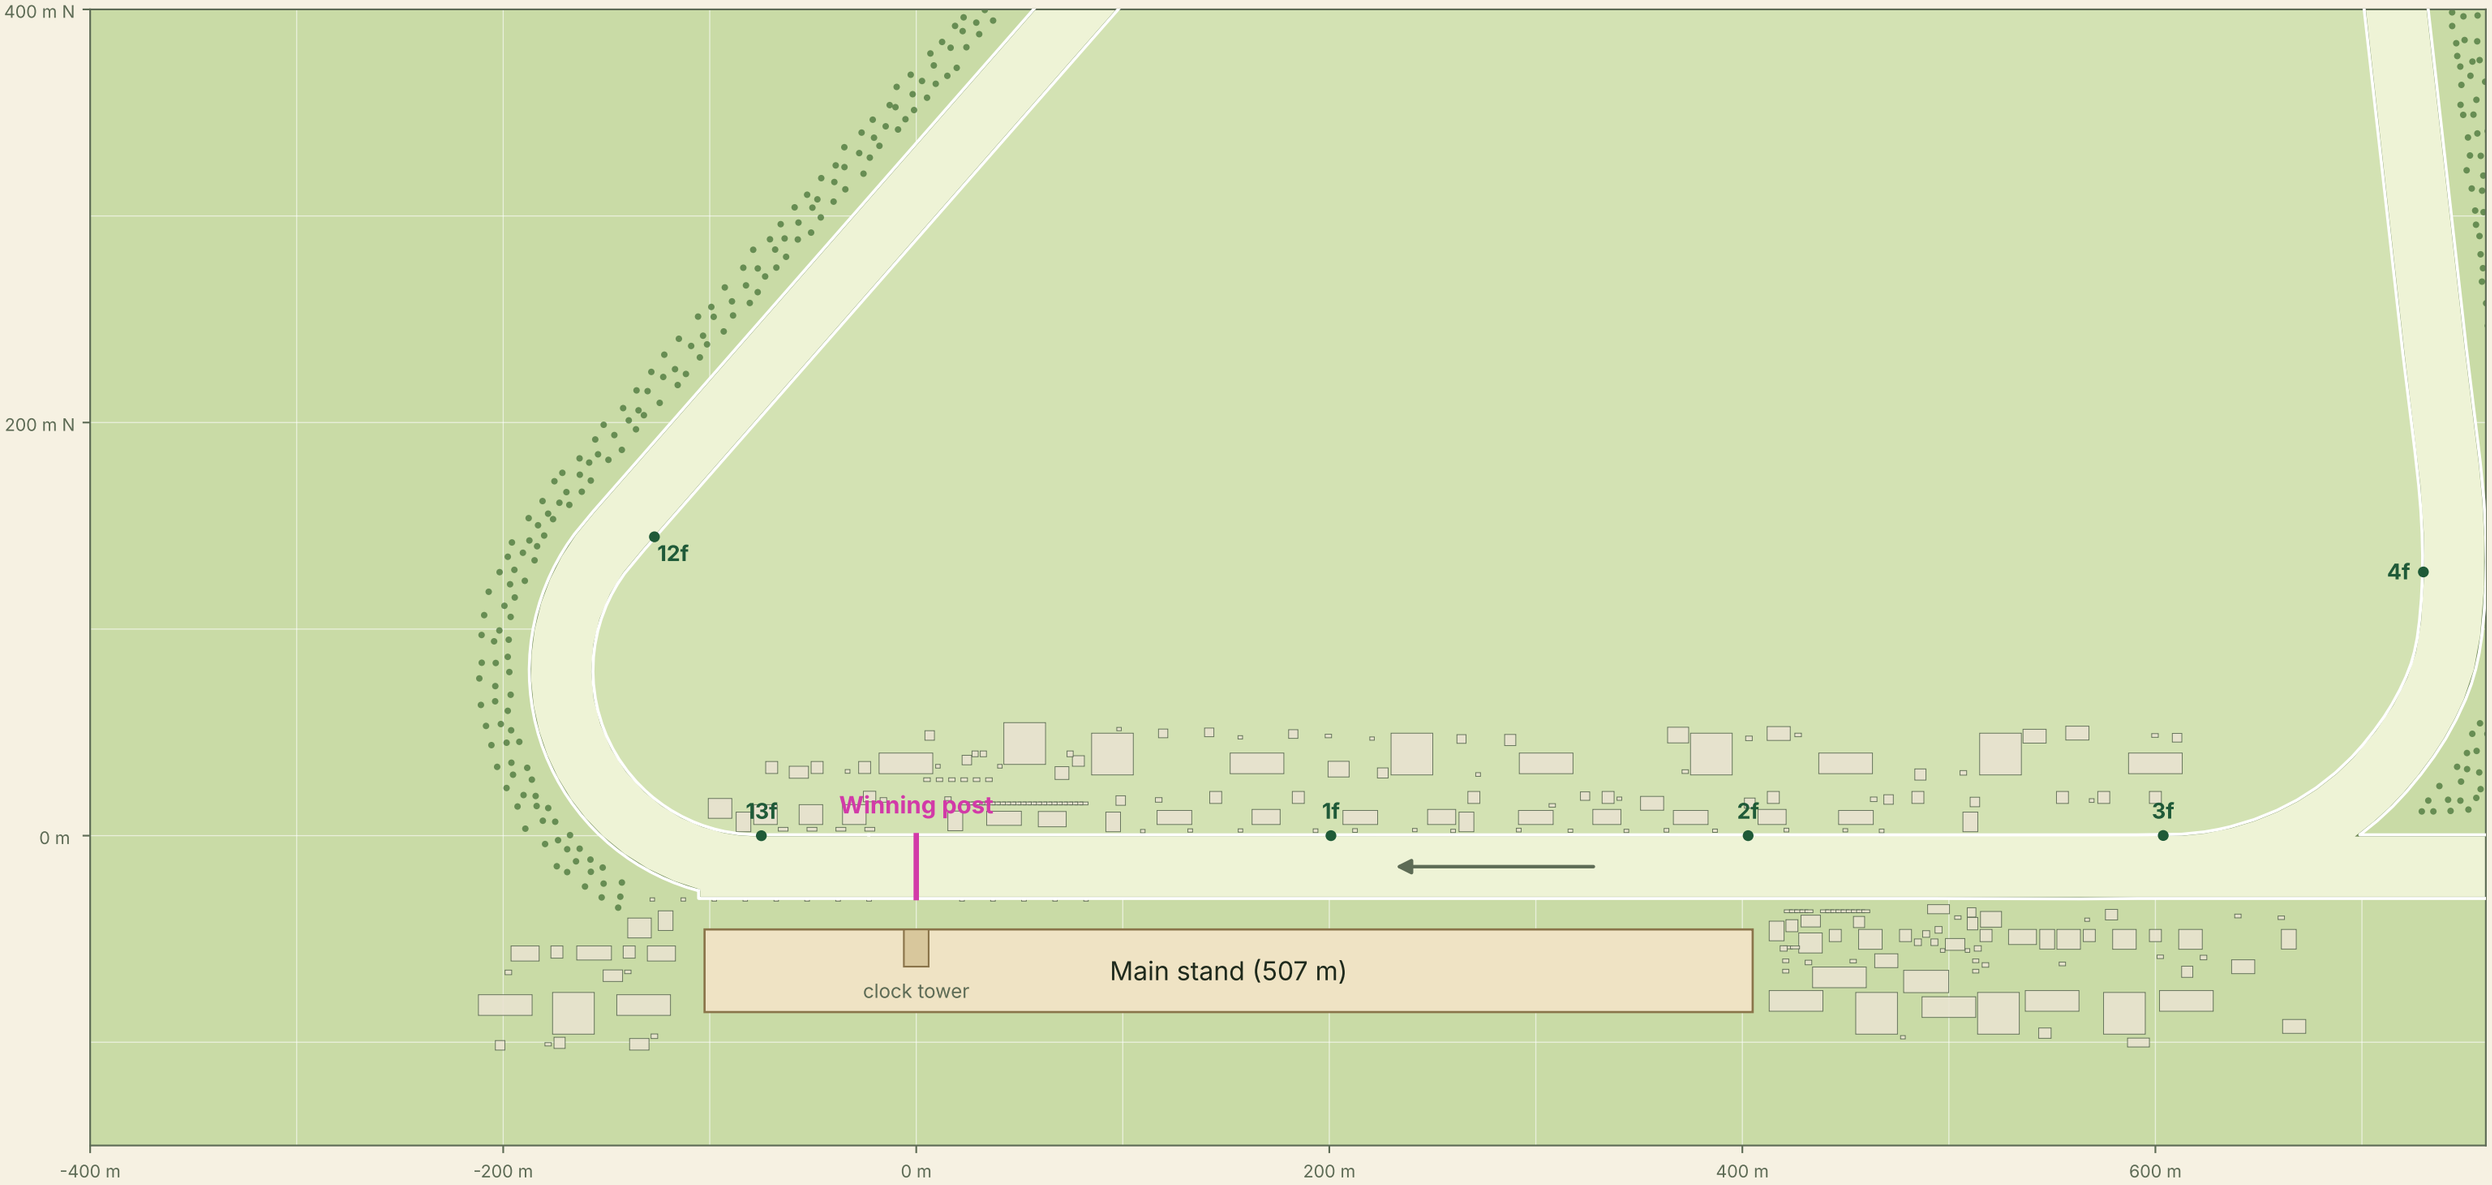

Camera position:	a dot where it stands, with its height (e.g. 'box, 25 m up')
Coverage:	an arrow along the track from where it picks the race up to where it hands over
Framing:	whole field / leading group / leader, or a TV grab number
Grandstand shots:	where the camera is and what it should show of the stand
TV grabs:	number each reference image and write its number by the camera

Cameras (your notes)

1 Inside-rail tracking
2 Grandstand camera box
3 Side-on at the post
4 Tight aerial
5 Grandstand shot
6 Grandstand shot
7

Thoroughbred · Ascot: camera plan, home straight

The home straight, the stand and the turn in, enlarged (same grid). Mark the grandstand shots and the finish cameras here.

How to mark it up

Camera position:	a dot where it stands, with its height (e.g. 'box, 25 m up')
Coverage:	an arrow along the track from where it picks the race up to where it hands over
Framing:	whole field / leading group / leader, or a TV grab number
Grandstand shots:	where the camera is and what it should show of the stand
TV grabs:	number each reference image and write its number by the camera
